PRICE TWO CENTS

CONSTITUTIONAL MEETING RECONVENES TODAY AT 5

Dawson Nominations Are Extended

One Position Out of Eight Contended

St. Johns, Que., Feb. 12.—(Special to The Daily)—With only meagre results from the nominations campaign recently held at Dawson College, the Dawson Students' Council announced here last night that the closing date for nominations would be advanced to Thursday, February 14 at 5 p.m.

RETURNS SMALL

The call for nominations for officers of the Dawson Council went out just short of two weeks ago and returns received Monday were far from what was expected by the present council members. Of the eight positions being contested, nominations for only five were turned in, and of all those only one post, the presidency of Engineering I, had two contestants.

PRESIDENT'S STATEMENT

Peter Hadrill, acting president of the council, expressed his regret that Dawson students took such little interest in their student governmental affairs as is evident by the present nominations campaign. He also pointed out that if no more nominations are received all nominees except those of Eng. I will be elected by acclamation and three posts, vice-president of Science, house committee chairman and canteen manager will be left vacant.

Another council spokesman stated that the closing date for nominations had been extended primarily in the hope that Dawson students would realize their failings and by so doing remedy the present situation. Nominations will be received by the secretary-treasurer of the council in the Administration Building until 5 p.m. Thursday, February 14.

Nominations are to be handed in to the secretary-treasurer of the council before the closing date, and must be signed by the nominees besides containing the following number of signatures:

President of Students Council	25
President of Engineering I....	20
President of Science.....	20
Vice-Pres. of Engineering I..	15
Vice-Pres. of Science I.....	15
House Committee chairman....	10
Social chairman.....	10
Canteen chairman.....	10

CUP WIRES

Toronto: Cornell debating team defeated Toronto last night by a vote of 87-41, on the topic "Resolved that there should be unrestricted Jewish immigration into Palestine." The affirmative stressed the achievements of the Jews in Palestine and their war record in contrast to the disturbances created by the Arabs. The negative said that the opposition of the Arabs to immigration made civil war inevitable.

Wolfville: Dr. W. H. Eager, Canada's senior radiologist addressed Acadia's pre-medical students here last night showing films of many of his rare cases and, in one instance, a case that is unique in Canada.

Toronto: Entire estate totalling \$2,000 of the late F/O John Fraser Gray R.C.A.F. was left to the university for modern history scholarships. This is the first recorded instance of an undergraduate doing this. Qualifications are outstanding intellectual ability, Christian integrity and high future promise. The award is made when the students' possibilities are realized.

ATTENTION FIRST YEAR GIRLS
Please note the announcement on the bulletin board of the common room of the Arts Building. It concerns a tea dance to be held on February 23 from 4:30 to 7:30 p.m.

Table Reservations Made Thursday

Last night the Plumbers' Ball Committee announced that table reservations for the Plumbers' Ball will only be received on Thursday between 9 a.m. and 5 p.m. by phoning LA. 1078. This applies only to McGill campus students; other arrangements are being made to receive reservations from Dawson students.

As is customary, each table will seat couples and so the committee pointed out that any groups smaller than this number will share a table.

Featuring George Paxton and his orchestra, the Plumbers' Ball will start at 10 p.m. and run through till 3 a.m. During the intermission Don Cameron and his orchestra will provide the music.

Rev. A. Cameron To Speak Tonight In McGill Union

Church of Messiah Clergyman Upholds Educational Liberty

"We must protest against the handing over of young minds to superstition and ignorance, against interference of orthodox religious spokesmen on the conduct of free education, against any interference with academic freedom, the lifeblood of democracy," stated Rev.

REV. ANGUS CAMERON

Angus de Mille Cameron of the Church of the Messiah. The Rev. Mr. Cameron will speak on "Christianity and Socialism" at an open (Continued on Page Four.)

Engineers Win Debate vs. Arts

Athletic Scholarships Is Topic; Victors Uphold Negative Side

The Interfaculty debate held yesterday in the Engineering Building between the Arts and Engineering Faculties on the topic "Resolved that athletic scholarships should be given" was won by the Engineers who upheld the negative side.

The winners, John Knécht and Ronald Rowe, raised the points that with the admission of athletic scholarships, other students would not have an equal chance in competing for places in athletics. Moreover, sports should be kept pure for "sport's sake."

Artists Jack McDonald and Jimmy Gore championed affirmative with the points that with the admission of athletic scholarships the calibre of sports in universities would be raised to a higher level. They recommended that a special faculty board be established to investigate the recipients of the scholarships of which a very limited number would be offered.

The judges of the competition were Gerald Charness, vice president of the Debating Union, H. Krashinsky, and Peter Adelstein, who acted as chairman.

Co-ed and Male Arts and Science Students Meet

Approve Proposal To Include Women In A. & S. Society

A special meeting of the Arts and Science Undergraduate Society Executive held in committee with the class executives of R.V.C. has gone on record as approving the proposed constitution of the Society to be presented for ratification at an open meeting called for tomorrow at 5 p.m. in Room 12 of the Arts Building.

Main change in this new constitution concerns the admittance of women students to the Arts and Science Undergraduate Society, and provision for their tenure of executive positions. The new constitution will be published in entirety in The Daily tomorrow morning.

ATTENDANCE

Those attending this meeting included Joyce Beatty, Heddie Brown, Denys Clark, Davida Griffin, Rae Hunter, Marlon MacGibbon, Joy Mackay, Mary Mitham, Bill Fingland, Bob Gill, Brian Doherty, Brian Macdonald, Jon Balon and Fred Cleman.

AGENDA

Tomorrow's assembly has been called as a regular meeting of the Society and all present members of the society are eligible to vote. The agenda will include a financial report, the budget, the new constitution, and new business.

AMENDMENTS

Other proposals in the new constitution include provision for auditors, the giving of the Arts and Science representative to the Students' Executive Council a vote at the Society's executive meetings, the appointment of a publicity manager, a sports representative, and a social convener, and a definition of the responsibilities of the Society to the clubs which come under its supervision.

Buhay Discusses Housing Problems

Contents Only Solution Lies in Dominion Gov't. Subsidizing Program

"The housing problem in Canada can be solved only on the basis of a Government program of subsidized housing." This was the context of an address made to a meeting on housing sponsored by the McGill L.P.P. Club yesterday by City Councillor Michael Buhay.

Mr. Buhay pointed out that according to the Curtis report, Canada needs over 750,000 homes. On the basis of existing income levels, the greater part of such housing must be built to rent for \$25.00 a month or less. Private industry cannot build housing for such rentals and still make a profit. The only solution in Canada, as it has been in many other countries, notably the United States and Great Britain, is public housing.

The L.P.P. program, calling for the expenditure of one billion dollars for the construction of 250,000 homes in a five-year period will help to house the many thousands of veterans and other Canadians now in desperate need of a place to live. Moreover, such a program would be a great stimulus to private building as well as provide many thousands of jobs.

Pointing to his own district as an example of evils resulting from poor housing, Mr. Buhay showed how high disease rates, crime, and juvenile delinquency could be directly traced to slum conditions and overcrowding.

Redmen Debaters Seek Laurels for McGill

JIM HEMENS

TED HUGESSON

ISADORE ROSENFELD

CONRAD SHATNER

McGill Teams to Compete For Coveted IUDL Trophy

Two McGill teams will debate tomorrow night in an attempt to win the coveted IUDL trophy for the first time.

In Montreal, the team of Ted Hugesson and Isadore Rosenfeld will uphold the negative side of the topic, "Resolved that every able-bodied Canadian youth should serve one year's compulsory military service," against the Ottawa team of Macdonald Caza and Richard Parisien. John Dando will act as chairman of the meet. The judges will be Canon Gower-Rees Archdeacon of St. George's Church, Col. Gilbert Staves K.C., prominent Montreal barrister, graduate of Oxford and Mr. R. W. Speirs. Headmaster of Selwyn House.

The same topic will be defended by a McGill team of Jim Hemens and Conrad Shatner at Bishop's College. The winners of the eastern section will compete with the western section teams for the championship.

The IUDL trophy is emblematic of supremacy amongst University teams in the debating field. Eight colleges have teams entered in the competition. Those in the Eastern

section are McGill, Bishop's Loyola and Ottawa. McGill has never as yet won this Trophy but the Debating Union Executive has fond hopes of annexing the title this year.

Two of the debaters are veterans of IUDL competition. Jim Hemens was on Loyola debate teams for two years and last year represented McGill. Isadore Rosenfeld, who is president of the McGill Debating Union also served on last year's debating team.

Conrad Shatner and Ted Hugesson have represented McGill in Intercollegiate debates this year having debated as a team against a University of Vermont duos last December in Burlington.

These debaters were victors in the eliminations held early in December and have been preparing their speeches for the past two months. As members of the IUDL team, they will receive the Debating Key, a beautiful gold medallion, the highest forensic award at McGill. The practice of giving these keys was discontinued during the war but will once more be offered to IUDL teams.

WE PROTEST STRONGLY

This little bit of information should interest Fred Clemen, illustrious concocter of the column entitled "Skipping Lectures". It seems that if you skip classes at the United States Army University in Shrinham, England, you are liable to a court-martial and a \$25 fine. See you in Philosophy I Saturday Fred.

A NEW COURSE AT ACADIA
When the dishwashing machine broke down in the dining-room of Acadia University, a call was issued for volunteers to wash dishes, in order that breakfast might be served. Much to the surprise of all concerned, there was a fairly large response. Students wished to know if they got credit for "Dishwashing I", and rumor has it that the course is compulsory for all married students, both male and female.

ITS DIFFERENT HERE

The president of the University

of B.C. was asked if ex-service students were knocking down to their studies. He replied by telling of the time he asked a pretty young co-ed (that reads pretty and young) how she got along with the veterans. "I can't quite understand them," she replied with a puzzled look. "When they ask me for a date they say we can go over some notes together, or swap out on some chemistry experiments." Down here they study the geometric circles made by the bottom of glasses on the top of a table.

"WHAT'S IN A NAME..."
The Sheaf announced that at the informal soiree thrown by the Engineers there would be an added attraction, in the person of a beautiful hostess, who would greet everyone personally. Come Helen Highwater everybody swore to be there. No its not a typographical error, the hostess' name was Helen Highwater.

Students Will Debate Changes in Constitution

Amendments

Moved by H. A. Richter, Seconded by M. Cayford, Passed by Students' Executive Council.

Which now reads
The Secretary-Treasurer shall be custodian of all records, ledgers, receipts or documents of any nature whatsoever belonging to or dealing with the affairs of the Society. He shall receive and deposit all sums accruing to the Society, giving receipts for the same.

Shall be amended to read
The Secretary-Treasurer shall be custodian of all records, ledgers, receipts or documents of any nature whatsoever belonging to or dealing with the affairs of the Society. He shall be in charge of disbursements and shall receive and deposit all sums accruing to the Society, giving receipts for the same.

(B) Elections, which now reads
The President shall be elected annually between the 1st day of March and the 15th day of March, by a ballot of all the members of the Society. He shall be nominated by any fifty members. Such nominations shall be presented in writing to the Secretary at least ten days before the date of the election and published by him in the "McGill Daily" at least one week before the date of election.

Shall be amended to read
The President shall be elected annually between the 1st day of March and the 15th day of March, by a ballot of all the members of the Society. He shall be nominated by any one hundred members. Such nominations shall be presented in writing to the Secretary at least 10 days before the date of the election and published in the "McGill Daily" at least one week before the date of election. (The President) which now reads

The President shall take office at the beginning of the fiscal year. In the event of resignation, the Students' Executive Council shall decide on a date for the election of a successor, the procedure of election being similar to that used in the case of the regular election. The successor so appointed shall hold office until the end of the fiscal year.

Shall be amended to read
The President shall take office at the beginning of the fiscal year, July 1st. In the event of resignation, the Students' Executive Council shall decide on a date for the election of a successor, the procedure of election being similar to that used in the case of the regular election. The successor so appointed shall hold office until the end of the fiscal year.

Which now reads
The Secretary-Treasurer shall be chosen by the Students' Executive Council to hold office for the current year, the continuation of the agreement depending on ratification by each successive Council. He need not be a member of the Society and may be paid a salary.

Shall be amended to read
The Secretary-Treasurer shall be chosen by the Students' Executive Council to hold office for the fiscal year, the continuation of the agreement depending on ratification by each successive Council. He need not be a member of the Society and may be paid a salary.

Sub-Amendment

Moved by C. Fox, seconded by P. La Porta, passed by Engineering Undergraduate Society Executive.

ARTICLE V
Section (b) Elections:
Shall be subamended to read:
The secretary-treasurer shall be Continued on Page Four

EIC to Consider Eight Resolutions

Articles Formulated At EUS Conference Presented To Council

Eight resolutions formulated at last week's conference of the Engineering Undergraduates Societies' presidents, representing the major Canadian universities are to be considered by the council of the Engineering Institute of Canada, sponsor of the Canadian Universities Engineering Conference.

In all eight resolutions were passed in the two and a half day parley. These dealt with ways and means whereby the E.I.C. could be of direct and effective assistance, academic and professionally, to the engineering student and the young graduate. Specifically, they covered such points as financial

Foster Explains Cyclotron Details

Macdonald Professor To Discuss Various Aspects of Machine

Details concerning the construction, nature and purpose of one of science's relatively new wonder machines, the cyclotron, will be outlined by Professor John S. Foster, Macdonald Professor of Physics at McGill University, before an open meeting of the McGill student branch of the Canadian Association of Scientific Workers at 5 p.m. tomorrow in the main lecture theatre of the Chemistry Building.

Recently recalled to McGill to direct and plan the construction of McGill's long proposed cyclotron, Prof. Foster was one of the first persons to be acquainted with

Society to Continue Discussions

The Students' Society will reconvene today in The Union Ballroom to consider changes and subamendments to the Society's constitution discussion for which was begun at a meeting held last Thursday. The meeting is scheduled to get under way at 5 p.m. will be under the chairmanship of Richard J. Balfour, President of the Students' Society.

Last Thursday the Society dealt with a number of the first articles of the constitution and then, on a motion from the floor dealt with Article VIII Section 1, which deals with the number of student-signatures necessary for calling a general meeting of the Students' Society. Two amendments were on the floor at the beginning of the discussion, which was highlighted first by the withdrawal of a sub-amendment by W. Ornstein calling for a list of 200 signatures to hold a society meeting. The original amendment by H. A. Richter for the Students' Executive Council calling for 1,500 names was then contested by C. Fox and EUS Undergraduate Society, calling for 250 names. Fox's sub-amendment was defeated and a compromise suggestion of 300 also met defeat. Final compromise was then reached by an amendment for the floor calling for 500 names.

TODAY'S MEETING

Today's meeting will be concerned with the remainder of Article VIII, dealing with the Students' Society quorum. Other amendments include plans for an extension of the Students' Executive Council to represent all such faculties as have hitherto been unrepresented on the Council. Also discussed will be a subamendment from The Engineering Undergraduate Society calling for the extension of the Managing Board of The Daily from three editors to three editors and three elected representatives.

Other amendments on the floor for today's meeting include suggestions to open to the students at large certain meetings of the Students' Executive Council, and plans calling for an alteration of the voting system at McGill to allow co-eds to vote in their respective faculties rather than for one RVC delegate to the Council.

McGill's project. For many years he has been working on plans for the cyclotron and by the summer of 1939 had made considerable progress in construction details. Work was to start on the project in that year but was delayed because of the outbreak of World War II.

During the war years Prof. Foster was engaged in radar research both at the Massachusetts Institute of Technology and the Radio Research Laboratory of Harvard University. Here, with many other technicians of the United Nations, he fought the battle of the laboratory, making improvements on the now startling radar.

New York: Mayor William O'Dwyer resigned at 6 p.m. last night his emergency order shutting down the normal business life of New York City. He explained that improvement in the fuel situation made this step possible, but that the schools will remain closed.

London: Britain yesterday gained majority support in the 11-member United Nations Security Council against a Soviet Ukrainian demand for a commission to investigate the Indonesian situation.

Ottawa: Canada's total financial aid to the United Kingdom will not be less than \$1,250,000,000 and it may run as high as \$1,500,000,000 according to present indications, but this large total will include the \$700,000,000 loan made in 1942 which has been interest-free during the war.

Chungking: President Chiang Kai-shek honored today his pledge for a new birth of freedom in China.

WORLD EVENTS

Musk-Ox Scientists Stage Tests to Find Endurance

Winnipeg, Man., Feb. 11, 1946—(CUP) — (The following is a report from The Manitoba's reporter in Churchill.)

Weird things are happening nearly every day here at base headquarters of exercise Musk-ox at Churchill, Manitoba. Men are seen panting around an airstrip loaded with packs and heavy boots, or they are perceived indoors lying down awaiting the sound of a bell at the end of the hour, when they jump up to contort themselves into various shapes before reclining once more for another sixty minutes when they repeat the process.

True, it would seem queer to the layman, and sometimes does to the camp personnel, but to the medical corps it is merely a part of the routine endurance tests being given to the men of the Musk-ox moving force, which leaves Churchill on Feb. 14 on the 3100 mile arctic trek to Edmonton.

Heading the medical corps in these examinations are Captain R. A. MacBeth, 1944 medical graduate from the University of Alberta,

now base medical officer, Captain R. M. Croomer, class of 1943 at Toronto Medical School, now medical officer of the moving force, and Captain A. M. Bryans, also of the class of 1943 at Toronto. The latter two serve in the Paratroop Corps in connection with their duties in The Royal Canadian Army Medical Corps. These men supervise the administering of inoculations and vaccinations for diptheria, tetanus, smallpox, and typhoid to the men of Musk-ox.

At present, however, it is a group of distinguished Canadian and United States scientists which is causing all the unusual incidents here. Three Rhodes Scholars are included in the party headed by Doctor, now Colonel Robert Johnson of the U.S. Army and Harvard University. The scholars are Dr. F. H. L. Taylor, an associate in the research of medicine at Harvard and chief of the department of Biochemistry, who obtained his B.Sc. at the University of Saskatchewan in 1922, his M.Sc. at the same college (Continued on Page Four.)

WEDNESDAY, FEBRUARY 13, 1946 Vol. XXXV, No. 83

Today's Meeting

We have already commented on several occasions on the importance of the meeting of the Students' Society which is being continued today. We have also expressed the hope that today's meeting will be conducted more efficiently and with better taste and manners than the last one.

The amendments before the Society are all clear and should be considered carefully. Above all, they are aimed at bringing McGill's student government up to date. Although there are a number of points which will probably be contested by members, all points are more than worthy of consideration, and must be given a fair hearing. Only then can we be sure that the constitution which will probably guide student government for many years to come will be of the highest possible quality.

We believe that both students and those in charge of conducting the meeting have learnt from last week's experiences, and hope that the signs of the lessons learnt will be very much in evidence.

However, beyond all else, we hope that the attendance at today's meeting will be high enough to prove that McGill students have enough interest in the administration of their affairs, to warrant an efficient self-governing body. — C.W.

Documentaries

Those who attended yesterday afternoon's Film Society meeting learnt some very interesting facts about documentary films. Mr. Ernst Bornemann of the National Film Board of Canada, who spoke at the meeting certainly has the necessary background to make his lecture interesting.

When one hears about the making of these films and sees a few examples of such work by various nations, as the Film Society audience could yesterday, one realizes the tremendous possibilities of documentary films. Here, without any necessary false emotions and "happy endings", a real, true story can be told. The stirring developments and achievements of human endeavor can be portrayed calmly.

Today, with the world becoming more and more interested in international affairs, documentaries will certainly play an increasingly important part, not only in educating and enlightening one particular nation, but in drawing together the peoples of the world, thus giving them an insight into the problems and an understanding of the achievements of their neighbors. While feature films are today the blatant agents for pleasantly unmoled thoughtlessness, documentaries can hold an audience by the mere presentation of facts. Feature films have usually to invent an irrelevant story to hold the audience to the drug of escapism; documentaries depend on the truthfulness of their producers. So far, we are glad to find, documentaries produced in the English-speaking world at least (we have not seen others and would therefore not judge) are keeping up a good reputation and thus promise a future for truthful and factual reporting. — C. W.

Elegy

By J. W. Lieber

I have written many poems but the words muffled the moments into a terrifying silence into the thunder of a petal crashing on the grass.

My lies ground against each other ground against each other's scarious edges until the powder-flurry was set into printer's lead, until the continuance was in the stopping of the seconds, until the trauma-threshold directives were enough to point the way, until the hot drops melted into my skin.

Was the wound a gap or a window? Was it a laugh or a sob? Was it a prayer or a joke? Was it a voice or an echo? Was it the hunger of too much or too little? Was it the stirring of birth or the ultimate rigour?

All the grey faces cobbled-mottled along the continuum of memory all the grey faces huddled in the baskets in the garish tunnels pattered by the piston-bark of the underground mastiffs,

all the grey faces watching the plaster-caked candle flickering in the unbreathable air of their fear, shadows poking sharp elbows through the dust, all the grey faces squinting into the night tense at the shiny knobs of destruction writing their promissory hopes on the clouds with their pencils of light, all the grey faces that have looked into mine their eyes great question-marks.

Can you answer what asks nothing, wants all? Will you embrace your murderer? Oh will you kiss the eagle, Prometheus, will you kiss the eagle?

Beyond the hill of bones another and another and another, hills cupped in the blood-ruts of Europe, still-life pillared by the weeping widows, so many navities per square mile, so many calvaries per rubble heap, — Europe is full of christs.

The Column

—Harry Garfinkle

Post War Literature

Several years ago, Dorothy Thompson, speaking to the graduates of McGill, told them, "After the last war my generation wanted to build a new and better world, but our teachers and parents didn't let us." And that was the theme of the writing of the twenties that came under the heading of serious literature. The frustration of the aftermath of the war to end wars and usher in universal democracy hit the writers of that period hard, and the result was Dreiser, Farrell, Dos Passos and the poetry and writing of the Lost Generation.

The decade before this war saw Karl Marx come into his own, and the writers were busy showing how the various parts of "The System" were corrupt and decadent. These were the years of Steinbeck, Faulkner, Wolfe, Hemingway and the whole school of proletarian literature. Most of these writers had learned to write under the post Zola naturalist and expressionist school of Ezra Pound, but did not achieve fame until the thirties.

During these twenty years the only positive notes in the writing were struck by the liberation of the libido in the twenties, and the resurgence of faith at the time of the Spanish Civil War in the mid thirties. Then came the second world conflict, and escape and opposition writing were once again the order of the day.

With the ending of the war, the question arises, "Where is creative writing heading now?" And the answer seems to lie with another pupil of Hegel, and contemporary of Marx—Soren Kierkegaard. Paris, that core from which most art systems seem to spread and diffuse, is now in the throes of the problem of "Existentialism", and by the articles and stories appearing in British and American avantgarde writing, these countries will in the next ten years witness the popularization of that school of writing. Roughly speaking, its main concern is with the problem of human guilt for the mess we're in. In living in this present society with its exploitation and mechanization and corruption, "How much guilt is mine?" is the current problem.

Kafka was the man who in the mid-twenties, with his works "The Trial", "The Castle" and "Amerika", first postulated the problem in a striking literary form, and with the translation of his work into all the European languages the influence is spreading. The long poem that has been running in this column for the past four weeks was based on this very theme. It dealt with the answer of the prophet-revolutionary, the man in the gutter, the student, the teacher-professor, and the artist to the question of "What is my guilt in living in the present time?", with its only personal affirmation being the possible realized ideal that seems possible to all of us, barring some of the ignorance and bigotry and rampant poverty and exploitation extant.

Since the problem in its allied forms has been bothering men before the time of Job's complaints, it is an indication that the coming literature will be on a higher plane than the regionally and historically conditioned writing of the present period. In addition those two giants of the twentieth century—Joyce "Ulysses and Proust" A La Recherche du Temps Perdu—are becoming better known; and thus, though the level of writing on the Book of the Month Club's listing is of a poorer calibre than ever I can remember, the future is not too bleak. In addition the writing of Neco, Silone, Malraux and Martin duChard has kept the ideal of socialist humanism alive even in the darkest hours of this half century —and this too has a leaven of hope for future writing. (To be continued.)

LETTER FORUM

Due to obvious limitations of space, letters to The Editor are requested to be as brief as possible. Contributions longer than four hundred words will not be printed. Please remember that letters must be signed by the author.

THE QUORUM

The Editor, McGill Daily, Montreal, Que.

Dear Sir:—I would like to highly commend the action of Mr. Ornstein and Mr. Shecter in withdrawing the L.P.P. sub-amendment to the Constitution. If the meeting on Wednesday can be conducted in this same spirit of compromise now that even the vaguest suspicion of pressure group action has been eliminated, it will, I hope, be possible to complete all the work on the Agenda in a calm and more dignified manner.

The whole "quorum" issue is now raised above partisan levels and resolves into an objective choice of which figure (500 or 250) is the best for the McGill Students Society as a whole. The chief objective to a high quorum is that it might deny small groups the right and opportunity of obtaining a hearing. This, however, I believe, is a misunderstanding of the "principle of Student-self-government for every student on this campus has his elected representative to whom personal or small faculty problems may be referred for action and it should be only on matters of the widest interest and utmost importance that Student Society meetings should be summoned.

For the same reasons these meetings should be representative of as high a percentage of the Students Body as possible for the opinions or actions decided upon are considered to be the expression of the whole undergraduate body regardless of whether they attended the meeting or not.

From figures obtained from the Registrar's Office, approximately 4,144 students attend lectures on the Montreal campus and are eligible to take part in these meetings. Of these a quorum of 250 would represent 5.9 per cent, while the figure of 500 proposed by the Students Executive Council represents 11.8 per cent. Both of these percentages are obviously very low and naturally one is only half that of the other. Taking also into consideration the fact that at the most important and well publicized meeting of the year, namely, that held last Thursday, only 450 (approx.) turned out, I should like to suggest perhaps a compromise figure of 350, which represents 8.3 per cent. of the Student body, might be moved at tomorrow's meeting. I would combine the factor of feasibility with the widely held desire to make the results of these Student Society meetings more truly expressive of the Undergraduate body as a whole.

J. A. PATTERSON, Arts II.

WHAT HAS HAPPENED

To the Editor, McGill Daily: Dear Sir,—May I, through the

Film Society

Documentary Films

Yesterday at 3 p.m. the Film Society had as its guest Mr. Ernst Bornemann of the National Film Board who gave a very complete picture of the place of the Documentary Film in the world of communications.

He related a factual history of Documentaries. Of more interest however, was his appreciation for its present function of interpreting for all Canada the various aspects of our national life. Nor did he confine himself to national limits but stressed the international need for interpretation of our different ways through this medium.

Because of his wide experience Mr. Bornemann was also able to acquaint us with some of the finer points in the production of a Documentary film. Having no plot of its own, it must depend upon photography and cutting to put the story across and forget the usual cinematic tricks employed in feature pictures.

To illustrate his words he showed "New Towns For Old" British, "Lake Carrier" American and "Flight 6" Canadian.

"New Towns For Old" relied on its audience knowing how miserable slums can be. Yet it was to the point and did convince that planning is necessary. "Lake Carriers" was the story of Great Lake freighters bringing ore to the steel mills. It vividly pictured the lake traffic but missed out in showing its importance to the American national life.

"Flight 6", a tale of trans-continental and trans-oceanic air mail did not wander from its central theme of "communications" but also managed to include the human side too. It is a credit to the National Film Board.

After the showing of these three Documentary films, Mr. Bornemann answered questions put to him by the students. — J. R. M.

one's mind is to CONSULT HIS PARTY, and whatever the party tells him to do, must be the right thing. My comment: "Phooey!"

(4) The students who opposed the sub-amendment of the Engineers were convinced that some "pressure groups" try to put petition after petition to the Executive. In order to prevent this, they voted the way they did. To my knowledge there were only two items discussed by the Students' Society, and namely, the Canadian Japanese problem and the Argentine problem. In my opinion these two items were not only worth discussing once, but over and over again. Some people say that we, as students, should not discuss things "that do not enter our sphere."

What exactly do they mean? What do they want us to discuss? More dances, Bob Chester, Frank Sinatra, a new yell for McGill, French bathing suits or Erol Flynn? The Canadian-Japanese problem concerns the students very directly and so does, whether some people realize it or not, the persecution of democratically-minded students of Argentina. Politics are not something out of this world. They are found in our everyday life.

Yours truly, LEON DAVICHO, Arts 2.

NOTICE

Nominations for the following office are called for:

President of the Students' Society

These nominations must be in writing and in the hands of the Secretary of the Students' Society, McGill Union, by 2.30 P.M., THURSDAY, FEBRUARY 21st, 1946. Nominations must be signed by 50 members of the Students' Society. There should be two or more nominations. Women students to sign nominations for President of Students' Society and Debating Union Society only.

Nominations for the following offices are called for:—

President of the McGill Union. Vice-President of the McGill Union.

The Vice-President will not have living accommodation in the McGill Union.

Secretary of the McGill Union. Representative to the Athletics Board.

These nominations must be in writing and in the hands of the Secretary of the Students' Society by 2.30 P.M., THURSDAY, FEBRUARY 21st, 1946. Nominations must be signed by at least 25 male members of the Students' Society.

No nominations will be accepted after the hour above specified.

Elections will be held on Tuesday, March 5th, 1946.

"No undergraduate shall sign more than one nomination sheet for any one office." This rule is applicable to the Executive of the McGill Union only.

SKI NEWS

Dear Sir: As no one seems to want to take the trouble to write regular, ski notices I have taken it upon myself to write an example. I hope it will stimulate some action from the proper channels.

This Sunday, Feb. 17, the Zone Championship Downhill, will be held on Mount Baldy at Ste. Marguerite. The race is open to amateurs, classes A, B and C, juniors, ladies and professionals. M.O.C. entries, which is your club, will be accepted at the athletics office. Continued on Page Four

THE MONTREAL CITY and DISTRICT SAVINGS BANK 1846 1945

Annual Report MONTREAL, FEBRUARY 11th, 1946.

To the Shareholders: Gentlemen, Your Directors have pleasure in presenting the Ninety-Ninth Annual Report of the Bank, and the result of its operations for the year ending December 31, 1945. The net profit for the year was \$120,084.51, and the balance brought forward from last year's Undivided Profit Account was \$258,381.78, making a total of \$378,466.29. From this amount quarterly dividends have been paid to the Shareholders and — apart from the sum of \$97,875.00, interest on the Charity Donation Fund, which was allotted as usual — the Bank distributed \$18,250.00 to various charitable and philanthropic institutions. \$250,000.00 has been transferred to the Reserve Fund, bringing the latter to \$1,750,000.00 and leaving a balance at the credit of Undivided Profit Account of \$131,018.29, to be carried forward to next year. With deep regret — a feeling which I am sure is shared by all — we have to record the death, during the year, of two of our Directors. Mr. M. Arthur Phelan, a Director for the past fourteen years and Vice-President of the Bank since 1943, died on the 1st of October. Eminent in his profession as a barrister, a man of sound judgment and fine personality, he was everywhere held in high esteem. Mr. Paul Amos, a Director for almost eight years, died on August 1st. An expert in the management of Estates, Mr. Amos was noted for his great kindness and his broad practical knowledge of affairs in general. To fill the vacancies thus created, Mr. Guy Vanier has been elected Vice-President, and Messrs. Jean C. Lallemand and T. Taggart Smyth, Directors. As usual, a frequent and thorough inspection of the books and assets of the Bank has been made during the year. The report of the Auditors and the Balance Sheet are herewith submitted. D.A. HINGSTON, President.

GENERAL STATEMENT DECEMBER 31st, 1945 LIABILITIES

To the Public:		
Deposits bearing interest, including interest accrued to date	\$109,452,358.47	
Deposits not bearing interest	1,733,431.95	
Charity Donation Fund	181,018.32	
Other Liabilities	1,294,920.56	
		\$112,661,729.30

To the Shareholders:

Intercollegiate Cagers and Pucksters In Weekend Action

McGill Hoopsters Travel To Western and Varsity For Crucial Return Tilts

Davidon May Not Join Squad Because of Foot Infection

Track Team Entered In Hamilton Tourney

A five men track team will travel next March 20th to Hamilton to take part in an indoor track meet there. Conditioning practices are held daily in the gym and as many hopefuls as possible are urged to turn out, as the selections for the team have not yet been made and will not be until after an interfaculty meet is held early next month.

The team will include four speed runners to make up the mile relay squad and a long distance man.

Hamilton, a first rank "track town" before the war is rapidly returning to the good old days of pre-war sport. The invitation for the track tourney has been extended to all Canadian universities, thus presenting a good cross-section of the nation's power in the Track sport.

J. Foster Takes Wicksteed Award In Gymnast Meet

Eight Participants Prep For Collegiate Meet On Feb. 23

John Foster walked away with the Wicksteed Trophy and top honors in three events at the gymnastic tourney held in Currie Memorial gym last night.

By racking up a total of 928 points in four events, Foster had very little trouble topping King, his nearest competitor, who took second place with 791 points. Barrette garnered 729 points to take third place.

Besides winning the tourney, Foster placed first in high bar, parallel bars and rings. In the high bar event, he topped King by 42 points. King had 209 to the champion's 251. Competition was tougher on the parallel bars. Both Henderson and Barrette pressed the winner, who took the honors by a 10 point margin. Johnson was the runner up in the rings event.

Barrette, while placing third on total points, led in two departments; side horse and mats. In the latter King was a close second. In the following table, first place in each event is underlined.

INDIVIDUAL SCORING

High Bar	Side Horse	Mats	Rings	Total
1. Foster ... 251	217	190	268	926
2. King ... 209	171	200	211	791
3. Barrette ... 155	207	160	207	729
4. Henderson ... 194	201	130	149	674
5. Savage ... 111	160	141	168	580
6. Butterfield ... 127	143	110	127	507
7. Leslie ... 171	169	163	163	503
8. Johnson ... 203	231	231	434	

Science III & IV Down Med II A in Hoop Tilt

The powerful Science III & IV cage squad have just about clinched the Interclass Basketball title by virtue of their 24-17 victory over the Med II A quintet in a game played at the gym yesterday afternoon. The victors were leading by an 11-2 count at half-time and keeping a up steady front came out on top.

A former University of British Columbia player, Eitelthery was top scorer for the Science five, netting half his team's points. High man for the Medics was Sharkey who potted three field goals and a free throw for a total of seven points.

The other scheduled tilt between Med IIB and Phys. Ed. was not played since the players on both teams failed to turn up.

You heard the one about the doctor who said, "I can't diagnose your case. I think it must be drink."

"All right, Doc," said the patient. "I'll come back when you're sober."

The Senior Red cage quintet, that finally came into their own this past Friday evening at the Currie Gym, when they came out on the top end of a 40-39 count at the expense of the Varsity five in what was undoubtedly the most exciting game played in these parts for years, take to the road this weekend for a trip that will either "make 'em or break 'em."

The Redmen are on tap to face the Mustangs at Western Friday evening and then journey to the Queen City to take on the Blues Saturday evening.

Coach Lou Davies' boys face a tough assignment in their tilt with the league-leading Mustangs and will be out to avenge the 49-29 drubbing they took when the teams last met. If their form is anything like the display they put on against the Blues Friday evening the Redmen may pull an upset.

However a sad note has been struck in the McGill camp in that starry George Davidon who has paced the squad to many a victory has come through with an infected foot, and if not given a medical okay by Thursday afternoon will not be able to make the trip. If Davidon cannot make the trip Phil Weisberg will travel with the team, but in the event that George is considered medically fit Weisberg will remain behind, since Coach Davies will be carrying only nine men.

In Toronto on Saturday evening the Redmen will be facing a quintet that will really be on their toes in order to reverse the close decision the locals copped in their last meeting. The Blues have a strong, well balanced team and if Clayton, Zeaton et al "are on" the Redmen will have another tough test on their hands.

The Red and White squad have finally rounded into tip-top shape and if Greenburg, Hoyle, and Finlay show up as well as in the past few outings the team should come back with two more decisions to their credit. Ronnie Bower, flashing sensational form of late has hit his stride and has proven himself a valuable man to have around in the clutches.

The Redmen will have to come through in both tilters to keep their championship hopes alive since one loss will put the Western squad on top with a secure lead.

Sports Summary

YESTERDAY'S RESULTS

Intramural Basketball
Science III & IV 24; Med. IIA 17.
Intercollegiate Hockey
Toronto 6, Queen's 0.

TODAY'S GAMES

Intramural Hockey
5:00 Med. II vs. Eng. II.
6:00 Com. I vs. Grads.
Intramural Basketball
5:15 Med. IIA vs. Eng. IIA.
6:00 Com. IB vs. Med. IIB or Phys. Ed.

Interclass Hockey
5:00 Denis vs. Comm.
Intramural Swimming Championships
5:30 K. of C. Pool.

TOMORROW'S GAMES
Intramural Volleyball
5:30 Arts III & IV vs. Eng. III.
Boxing and Wrestling
8:00 Intramural championships.

Intramural Boxing Titles And Mat Exhibition Thursday

Potential mat and ring champs will have a chance to show their wares this Thursday evening in the Currie Gym when the annual wrestling and boxing intramural contests get underway at 8:00 p.m. A program that is sure to pack a wallop has been planned and the competition is sure to be keen.

Standing out in the ring section is big Dave Common in the 175 pound class. Dave won his first fight in the city tourney this year by a T.K.O. but unfortunately did not come through in the finals. Common, along with steady Johnny Piper, 165 pound steady hooker, and John Rogers, one of the better boxers in the 135 section, and Eric Robinson 145 pound stalwart, are the big guns slated for action.

COACHES CONFIDENT
Both Coach Irving Phillips of the ring squad and Frank Saxon wrestling coach, have moulded their charges into smooth-working performers and a good show should be on hand Thursday evening, when all the festivities will be open to the public with admission free.

Foremost among the "grunt and groan" experts is experienced Joe Sabbath. Joe recently came through

with a Montreal City and District title at the tourney held at the Y.M.H.A. and is also the bearer of a Provincial Novice championship. Sabbath has been matched against a Y.M.C.A. fighter, Champagne, with the bout promising plenty of action and clever mat tactics.

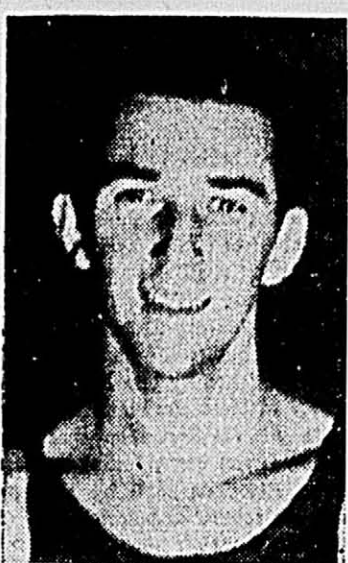

KOWAL

Wally Kowal, who has been matched against another "Y" grappler, an ex-provincial champ by the name of Vachon, is another mat artist who has put up very noteworthy efforts in his past bouts. An indication of Wally's strength may be drawn from the fact that he forced Steve Wilson, another Provincial titleholder of bygone days, to cancel a bout that was scheduled after his encounter with Kowal. Both Sabbath and Kowal are the mainstays of the Red and White team and are expected to carry off the honours in their respective sections. Sabbath in the 155 pound class and Kowal in the 165 section. Raymond, Calderon, McLeod, and Stafford round out the McGill entrants who will be facing Y.M.C.A. opponents in the mat contests only.

FIGHTING REDMEN

GEORGE HALE (this is really him, I hope, please Mr. Printer), and Captain **GEORGE DAVIDON**. Hale is a versatile goalgetter on a line with brother Tommy and Danny Porteous for the Intercollegiate Red hockey team. Davidon was the basketball star of the triumph last week against Toronto, who is suffering a leg infection at the moment and may not be present at the return match next Saturday.

(McGill Daily—B. Sabloff)

Sports Boom in Full Swing; McGill Hits Prewar Level

McGill is now back on the pre-war sports standard. With all athletics represented in Intercollegiate competition and a huge amount of interfaculty play going on, all sports minded students are getting their fill of athletics.

At the moment McGill is represented in Basketball, Hockey, Swimming, Water-polo, Fencing, Gymnastics, Boxing, Wrestling, Skiing, Badminton, Track and Squash. Also representative volleyball and judo teams are now in the process of formation. Having played Intercollegiate football in the fall McGill has pretty nearly covered the field in athletics.

In addition to all these representative squads, the University has interclass and interfaculty leagues embracing over twenty-three different species of sports. It is estimated that 1,000 students are partaking of the numerous facilities presented by McGill to help themselves and the nation to develop physically.

Hay Finlay, Director of Intramural Athletics, although rushed constantly always makes it his business to help the students organize. It was only through his aid that the Interclass and Interfaculty Hockey loops were organized. In these leagues the students who haven't the ability nor the time to develop it for the Senior or Intermediate squad, have the opportunity to relax in their favourite sport.

For the basketball enthusiasts, Mr. Van Wagner has proven to be a staunch ally and aid. As controller of the Sir Arthur Currie Gymnasium he has arranged times for a successful Interfaculty Basketball league which at the present is in full swing. For badminton and volleyball enthusiasts as well as rabid floor-hockey players Mr. Van Wagner has arranged floor time even though it meant much additional work for himself.

With these two men leading the huge extra amount of students into athletic endeavours, McGill will be assured of many future participants in Intercollegiate play who will show themselves up to advantage.

Cutts had no trouble in disposing with his opponent who is coach of the McGill badminton squad. It was evident from the start that the challenger was on his way to scoring an upset and the final results show the edge Cutts held in the play.

The series will be resumed in several weeks when a return match is to be held in Toronto. If Grant should win the final of the two out of three series will be held in Montreal.

Unbeaten Campbell Clan Battles Kingston Squad In Search of Ninth Win

League Leaders Meet Queen's In Redmen's First Road Test

Next Friday the McGill Senior Hockey team, a winning team so far in eight straight games, treks out to Kingston where they meet Queen's University in the second tilt between the two teams. In their last encounter the Redmen defeated the Gaels, 8 to 2.

So far this season the Gaels have not been successful in the hockey wars, having lost all three of their previous contests with other Intercollegiate squads. Coach Johnny Metras' pucksters, however, will be a question mark come game time next Friday night as the team will be fresh (or weary) since last night they played Toronto on the Blues' home ice.

PORTEOUS BACK

Besides confidence the Redmen will also boast of the addition of Danny Porteous who returns to his pre-season position of left wing alongside Jimmy O'Connor and Johnny Pierson.

The second forward line will include the Hale brothers, George and Tommy, and Reg Sinclair. So far this season this trio has proved to be a constant and effective threat to any and all opposing net guardians without any bias for any of them. All are treated alike by the S-H-H line.

The rearguard of Coach Campbell's well rounded team may be said to be in good hands when Mr. Nerveless, otherwise known as Jack Gelineau, mounts guard between the Redmen's pipes.

Just fore of Mr. Nerveless, somewhere around the blue line, four steady stalwarts break up enemy attacks with considerable ease. These include Bob Broderick, Gordie Gosselin, Doug Heron and Cy Beigler.

"Isn't it true," said the gushing young lady, "that you are a lady-killer, doctor?" "Madam," replied the "doc," "I make no distinction between the sexes."

THE TOPIC'S VITAL

UNDER THE SINK — with Georgie

It seems some people visiting our good Old Alma Mater are under the impression that it is an engineering school. Far be it from us to contradict such beliefs, but in all justice let us give credit where credit is due. We venture therefore to state that there are other faculties on this campus, even though the Plumbers do dominate most activities, such as sports, debating, organization, dances, and other similar happenings. Speaking of doings let us consider what "plumbs" among the Plumbers.

ENGINEERING NEWS

By far the most important event of the week for us Plumbers is the nomination for the executive of the E.U.S. This is an undertaking in which every engineer should have some part, either by plunking for the man he believes is most suited for the post, or by helping to solicit the necessary number of signatures for his nomination. There is no doubt that the men elected for the positions must be the best and the most suitable from every point of view. So come on you Plumbers let's see some life. . . . And don't forget that Ball, the cats are going to be tops, nothing but the best for dancing, and with the nicest girls the Plumbers are bound to have, hubba . . . hubba . . . hubba . . . For a faculty that is supposed to stick up for anything engineering you Plumbers are showing very little interest in the faculty publication, "THE MONKEY WRENCH". This is your magazine and it can only be as good as the interest you put in it. Right now it needs men to help with the advertising, so come on and show some of that spirit you are all supposed to have. For further information see Guy Mantha of Eng. II. . . . The Engineering Society is doing a swell job, keep it up men. An engineer who is not a good speaker is not a complete engineer.

DAWSON DOINGS . . .

Stop wondering why the cold Dawson winds don't howl anymore: the female Plumbers of the other sex are now attired in slacks . . . One student, caught cheating in poker, had to pay the penalty of memorizing the expansion of "e". His first words were "Isn't that the limit . . . ?" . . . After all the snow at Dawson, a notice appeared reading "Please remove Snowshoes and Skis before entering classrooms" . . . The cinch course students pre-

sent a pretty picture every Friday at 5 p.m. retreating to the safety of Montreal, apparently they don't trust the Engineers on the weekend . . . ever since one science man discovered the force of a stream of particles when caught in the crossfire of snowballs jet-propelled by ye olde slide rule pushers . . . The funeral for the frozen slipstick found in the snowbank outside bldg. 28 will be held this Friday, All T-squares, set squares, pencils and friends are requested to attend . . . Pun of the week: The married men's basketball team being called the "WEREWOLVES" . . . And so for another week of work and blackjacks . . .

ENGINEER OF THE WEEK

This week, our reluctance to feature members of the executive is justly overruled; and we open the Engineering Hall of Fame for our President, Charles Fox. In fact, to do him him justice due, we don't know just which of his accomplishments and efforts to laud.

However, we will reflect for a moment upon his magnificent work at the recent conference of E.U.S. Presidents sponsored by the E.I.C. in conjunction with their sixtieth annual meeting. Charles formulated the far-reaching proposals on employment for student and young graduate engineers, and if they are adopted by the E.I.C. every student will in some form or another derive countless benefits. Space prevents us from recounting his numerous duties in Plumbers' Paradise, but if he falls his forthcoming exams, it definitely will not be due to any intellectual shortcomings or inexcusable neglect.

and Dentistry, and one representative from the School of Commerce and one representative from the Theological College, affiliated with McGill University and one representative from the Royal Victoria College. These representatives shall be elected by the students of such Faculty, from the Junior Class thereof, between November 20th and December 10th in each year. Nominations from each faculty, signed by at least ten students of that Faculty must be in the hands of the Secretary of the Students' Society at least ten days before the date of the election, and published by him in the "McGill Daily" at least one week before such date, vote by ballot taking place on date of election.

Shall be amended to read (1) The Students' Executive Council shall be composed of the following members. (a) The President of the Students' Society who shall be Chairman. (b) The President of the McGill Union. (c) The President of the Women's Union of McGill University. (d) The Editor-in-Chief of the McGill Daily. (e) One representative from each of the undergraduate Faculties, one representative from the School of Commerce. One representative from the Theological Colleges affiliated with McGill University, and one representative from the Royal Victoria College. These representatives shall be elected by the students of such faculty from the Junior Class thereof between November 20th and December 10th of each year. In faculties of over 50 members, nominations shall be signed by twenty-five students of such faculty and in those of less than 50 members, nominations shall be signed by 10 members of such faculty. Nominations must be in the hands of the Secretary of the Students' Society at least ten days before the date of the election, and published by him in the McGill Daily at least one week before the day of election. Voting shall be by ballot on date of election. Schools other than that of Commerce shall for the purpose of this constitution be considered to be in those faculties in which they are placed by Senate.

Women will vote in their respective Faculties including Arts and Science and the Royal Victoria College representative shall be elected by all the women of the Royal Victoria College. Moved by H. A. Richter, Seconded by M. Cayford, Passed by the Students' Executive Council. Section 2 which now reads These members shall serve for one year from the first of the year following their election. Shall be amended to read (2) Those members Section 1—Sub-section a, b, c, d, shall serve for the fiscal year following their election, in Section 1, sub-section e, they shall serve for the calendar year following their election.

Sub-section 7, be deleted and the following substituted therefor: 7. The management and control of the Daily shall be in the hands of a Managerial Board, this Board to be responsible to the Students' Executive Council. The Board is to be composed of the following members: (a) Editor-in-Chief of the Daily, and two other members to be appointed by the S.E.C. on the recommendation of the retiring managerial Board. (b) Three elected members, to be elected annually by the Faculties enumerated below, at the same time as elections of the Students' Societies. There shall be— 1. One member elected from the Faculty of Engineering and the School of Architecture. 2. One member from the Faculties of Arts & Science, Law and the School of Commerce. 3. One member from the Faculties of Medicine and Dentistry. These elected representatives shall be students in good standing and in their junior year at the University at the time of the election.

Amendments

Moved by H. A. Richter, Seconded by M. Cayford, Passed by the Students' Executive Council. Section 8 shall become Section 7. Section 9 shall become Section 8. Shall be amended to read (8) The Council shall receive from the University all sums payable under Article IV, Section 1, (a) and Section 1, (b) except the amount payable to the Women's Union of McGill University, and shall divide the same as provided in the said articles. Such bodies so receiving monies from the Council shall have their books and accounts open to inspection and audit by the Council or auditors or inspectors appointed by it, on one week's notice. No. 10 shall now be No. 9. No. 11 shall now be No. 10. No. 12 shall now be No. 11. No. 13 shall now be No. 12. Shall be amended to read (12) Meetings shall be on such days and at such hours as Council shall deem fit. The Secretary shall give the members individual notice at least forty-eight hours before each meeting. Two-thirds of the members shall constitute a quorum. Moved by C. Fox, Seconded by P. Laporta, Passed by Engineering Undergraduate Society Executive. Article VI, Section 13—shall be amended to read (12) Meetings, open to student spectators, shall be on such days and at such hours as the Council shall deem fit. The Secretary shall give the members individual notice at least forty-eight hours before each meeting. Two-thirds of the members shall constitute a quorum.

Amendments

Moved by Richter, Seconded by Cayford, Passed by Students' Executive Council. No. 14 shall now be No. 13. No. 15 shall now be No. 14 which now reads (15) The following shall be the order of business— (a) Roll Call (b) Reading Minutes (c) Business arising out of Minutes (d) Communications (e) Reports from Committees (f) New Business (g) Notice of motions (h) General Shall be amended to read (14) The following shall be the order of business— (a) Roll call (b) Reading minutes (c) Business arising out of minutes (d) Communications (e) Reports from committees (f) New business

Article VII

(1) Regular. All Clubs or Societies, except those under the control of the Athletics Board, to which all students contribute, shall be constituted regular committees. Shall be amended to read (1) Regular. All Undergraduate Societies, and the Women's Union of McGill University, shall be constituted Regular Committees of the Students' Society. (2) which now reads (2) Special. Any other Clubs or Societies which affiliate themselves with the Council and place their funds under its control, shall be special committees of the Society. Shall be amended to read (2) Special. Other organizations whose funds are under the control of the Students' Executive Council shall be Special Committees of the Students' Society. (3) Standing. Any Clubs or Societies which are directly under the control of the Students' Executive Council and whose Constitution has been approved by the Students' Executive Council and whose Constitution provides for continuity of office shall be standing committees of the Society. Shall be amended to read (3) Standing. Any other organizations which are directly under the control of the Students' Executive Council and whose Constitution has been approved by the Students' Executive Council and whose

Amendments

Moved by H. A. Richter, seconded by M. Cayford. Passed by the Students' Executive Council. No. 6 which now reads (6) It shall appoint a salaried Secretary. Shall be deleted Section No. 7 which now reads (7) The management and control of the Daily shall be in the hands of the Students' Executive Council through the Editor-in-Chief of the Daily. Shall become Section 6 and shall read The Students' Executive Council shall be responsible for the management and control of the McGill Daily through the Editor-in-Chief.

Sub-Amendment

Moved by C. Fox, seconded by P. Laporta. Passed by Engineering Undergraduate Society Executive. Be it resolved that Article IV,

Constitution provides for continuity of office shall be standing committees of the Society. Sec. (4) Sections a, b, c, Which now reads (4) Athletics Board. The Students' Society shall have three male representatives on this Board. (a) President of the Students' Society, or in the event of the President being a woman member of the Society, a male member of the Students' Executive Council, nominated by her or elected by the other members of the Council. (b) The Chairman of the Students' Athletics Council (refer to the Constitution of the Students' Athletics Council, Article III, Sec. A and Article X, Sec. A). (c) One member elected by the male members of the Society by ballot to hold office for one year. Nominations for this representative shall be signed by at least twenty-five members, shall be presented in writing and shall be in the hands of the Secretary-Treasurer at least ten days before the date of election and published by him in the McGill Daily at least one week before the date of election. He shall take office at the beginning of the fiscal year. Elections shall be held during the month of March. Shall be amended to read (4) Advisory Athletics Board. The Students' Society shall have three male representatives on this Board. (a) President of the Students' Society, or in the event of the President being a woman member of the Society, a male member of the Students' Executive Council nominated by her or elected by the other members of the Council. (b) The Chairman of the Students' Athletics Council. (c) One Member-at-large, elected by the male members of the Society by ballot to hold office for one year. Nominations for this representative shall be signed by at least fifty members, shall be presented in writing and shall be in the hands of the Secretary-Treasurer at least ten days before the date of election and published by him in the McGill Daily at least one week before the date of election. He shall take office at the beginning of the fiscal year. Elections shall be held during the month of March. Section 5 which now reads (5) The Students' Social Functions. The members of the Council shall constitute a Committee on Students' Social Functions. All undergraduate bodies desiring to hold any entertainment, or other social functions, in the Union or other University buildings, must make application to the Committee, which may reject the same or forward it with its recommendations to the Principal. Shall be amended to read (5) The Students' Social Functions. The members of the Council shall constitute a Committee on Students' Social Functions. All undergraduate bodies desiring to hold any entertainment, or other social functions, in the Union or other University buildings, must make application to the Committee, which may reject the same or forward it with its recommendations to the Principal.

Article VIII, Section 2—shall be sub-amended to read: At each of the above meetings, two hundred and fifty (250) members shall constitute a quorum for the transaction of business.

Club News

COSMOPOLITAN CLUB

The Cosmopolitan Club will hold a St. Valentine's Day sleighride on Thursday evening. This party will cost 50 cents per person, and owing to limited facilities, attendance must be limited to 25 people. Any members of the Club who wish to come on this sleighride should notify Peter Hall at LA 6063, Irene Gardiner at MA 9176 or David Coore at MA 2948. The group will meet in the Union at 7.45 p.m. Money for the ride will be collected from all attending at the time of booking their space in the sleigh.

CCF CLUB

A particularly lively discussion period is expected tonight, when the Rev. Angus Cameron will speak to an open meeting in the Union at 8.00 p.m. The Rev. Cameron is known for frank exposition and discussion, as well as being an excellent speaker. The topic under discussion is "Christianity and Socialism". A particular invitation is extended to the S.C.M. and I.V.C.F. to attend the meeting and contribute in the discussion.

Which now reads (1) Reading of Minutes (2) Business arising out of Minutes (3) Communications (4) Business of Executive (5) Reports of Committees (6) New Business (7) Notice of Motions (8) General Shall be amended to read (1) Reading of Minutes (2) Business arising out of Minutes (3) Communications (4) Business of Executive (5) Reports of Committees (6) New Business (7) Notice of Motions (8) General

AMENDMENTS

Which now reads This Constitution may be amended by two-thirds vote at a General Meeting of the Society, provided two weeks' notice is given and published in the "McGill Daily." Sub-amendments shall be carried by a two-thirds majority of those present at any General Meeting of the Society, provided one week's notice is given and published in the "McGill Daily." If this notice is not given, the sub-amendment may be made from the floor of the meeting, in which case a majority of three-quarters of the members present shall be necessary for its adoption.

Shall be amended to read This Constitution may be amended by two-thirds vote at a General Meeting of the Society, provided two weeks' notice is given and published in the "McGill Daily." Sub-amendments shall be carried by a two-thirds majority of those present at any General Meeting of the Society, provided one week's notice is given and published in the "McGill Daily."

Article X

Shall be amended to read This Constitution may be amended by two-thirds vote at a General Meeting of the Society, provided two weeks' notice is given and published in the "McGill Daily." Sub-amendments shall be carried by a two-thirds majority of those present at any General Meeting of the Society, provided one week's notice is given and published in the "McGill Daily."

Sub-Amendment

Shall be sub-amended to read (2) At each of the above meetings, five hundred members shall constitute a quorum for the transaction of business. Moved by C. Fox, seconded by Laporta, passed by the Engineering Undergraduate Society Executive.

INTER VARSITY CHRISTIAN FELLOWSHIP

Professor George H. T. Kimble of the McGill geography department will be the guest speaker at the I.V.C.F. luncheon which is taking place in Student House, 3445 Peel street, at 1 p.m. today. There will be plenty of room at 1.30 p.m. for those who would like to hear Professor Kimble speak.

McGILL PRE-MEDICAL SOCIETY

There will be no meeting of the Pre-Medical Society this week. However, all those Pre-Med students wishing to obtain tickets for the Medical Ball on the 22nd of February are asked to get in touch with Betty Altholson, WA. 1012, as soon as possible. Tickets for the Pre-Med Social at the Berkeley Hotel for March 1st are available in the Union Tuck Shop.

Entertainment committee meeting Thursday at 1 p.m. Members please attend.

STUDENTS' VETERANS SOCIETY

Entertainment committee meeting Thursday at 1 p.m. Members please attend.

MUSK-OX—p. 1

lege in 1924, and his Ph.D. at Wisconsin in 1928; Colonel W. Hurst, who won his scholarship at Saskatchewan University in 1922, and Dr. Johnson himself.

Dr. Johnson, it may be remembered, originated the Harvard step and pack test which is frequently used for endurance examinations. He summarized his work at Musk-ox by stating that, "At Fort Nelson, as in Churchill, we will evaluate the physical fitness of the men by bio-chemical methods and the Harvard pack test." Thus, the peculiar antics of the men may be attributed to his research.

Dr. Johnson is a graduate of the University of Washington, Seattle, where with the class of 1931 he obtained a B.Sc. in chemistry. As a Rhodes Scholar he attended Oxford University for the subsequent four years and obtained his B.A. in psychology and Ph.D. in bio-chemistry. Then, from 1936 to 1941 he studied at Harvard Medical School and is now the assistant professor of industrial psychology there.

This group of men had, in their own words, "An easy afternoon off," last Friday. They examined about 40 natives—Indians who live near Churchill—in a series of medical and X-ray tests. The patients, whose ages range from one year to about 66, as one man said, voluntarily submitted themselves to the learned doctors in the interests of science. The majority of men, women and children, who require the use of an interpreter as they do not speak English, gaze in bewilderment at the machines that civilized man has brought to them. Or perhaps they are spellbound by the presence of the consultant of the Department of Medical Research to the Director General of Medical Services of the Canadian Army. He is Lt.-Col. Robert Kark, a South African, who obtained his B.A. at Capetown University, became a member of the Royal College of Physicians at the University of London (Guy's Hospital) and who took a post graduate course at Harvard University. Now he is working in conjunction with Col. Johnson's scientists and is doing research work at Churchill.

Yes, to the Indians and to the layman, all this may seem queer, but to the men at Musk-ox, to the Medical Corps, and to the visiting scientists it is all in a day's work.

LETTERS—p. 2

where there are forms. The fee is 75c and the entry must be in by Wednesday, Feb. 13, at noon. An alternative would be to mail it to Mr. Jacques Malo, 645 Dunlop Ave., Outremont, in time to be in his hands by 5 p.m. Thursday, Feb. 14. The drawing for starting positions will be at 6 p.m. that evening. The race starts at 11.30 sharp. Numbers will be given out before the race at the bottom of the hill. The Baldy Downhill will be officially closed Saturday afternoon preceding the race, and anyone running it will be disqualified. No one will be allowed to climb the course after 10.45 Sunday morning. There will be no post entries accepted. The same weekend, on Feb. 16, there will be the zone championship jump jumping at Cote des Neiges. Entries will be accepted by Mr. Bott, 5011 Gaieneau Ave., or Bob Wallace, 4542 St. Catherine St. W. Nominal fee is 50c and should accompany entry. Also a preview on the following weekend: there will be the Zone Championship Slalom race Feb. 24 held on Scots Slip on Mt. Gabriel. I hope this letter will result in some sort of beneficial action being taken.

R. I. M.

CONSTITUTION p. 1

chosen by the Students' Executive Council to hold office for the fiscal year, the continuation of the agreement depending on ratification by each successive Council. He need not be a member of the Society and shall be paid a salary.

Amendments

Moved by H. A. Richter, seconded by M. Cayford, passed by the Students' Executive Council. Article VI

STUDENTS' EXECUTIVE COUNCIL

Which now reads (1) The Students' Executive Council shall be composed of twelve (12) members as follows:

(a) The President of the Students' Society who will be Chairman. (b) The President of the McGill Union. (c) The President of the McGill Women's Union. (d) The Editor-in-Chief of the McGill Daily. (e) One representative from each of the five faculties: Medicine, Engineering, Arts and Science, Law
